Assume your position with Y-ply !

# Y-ply, user's manual

or how to fully enjoy  
the comfort of your Y-ply...

Although very compact and lightweight when stored, Y-ply offers excellent comfort in numerous resting position outdoors. For example :

### Sitting position

- When sitting just lean back on your Y-ply and you will feel comfortable on the sand, pebbles or grass.
- The angle between bust and legs can be adjusted as needed.
- Thus, your elbows are free to read, write, simply keep an eye on the children or enjoy the scenery.

### Lying down position

- When lying, Y-ply is particularly comfortable for reading or sunbathing with your face fully exposed to the sun.
- Two resting positions are possible, allowing your neck to be supported effectively and your back to relax.

### Side position

- This position enables you to reduce the pressure on your elbow, when reading for example.

### Other positions

- Foot rest...
